To-Do List App Report

1. Introduction

This report provides an overview of the To-Do List application built using React Native and Expo. The app allows users to add, edit, and delete tasks from a list. It features a modern UI design with custom fonts and colors.

2. Features Implemented

- Add a goal to the list.
- Edit an existing goal.
- Delete a goal from the list.
- User-friendly UI with customized colors and fonts.
- Scrollable list with a consistent design.

3. Colors and Fonts Used

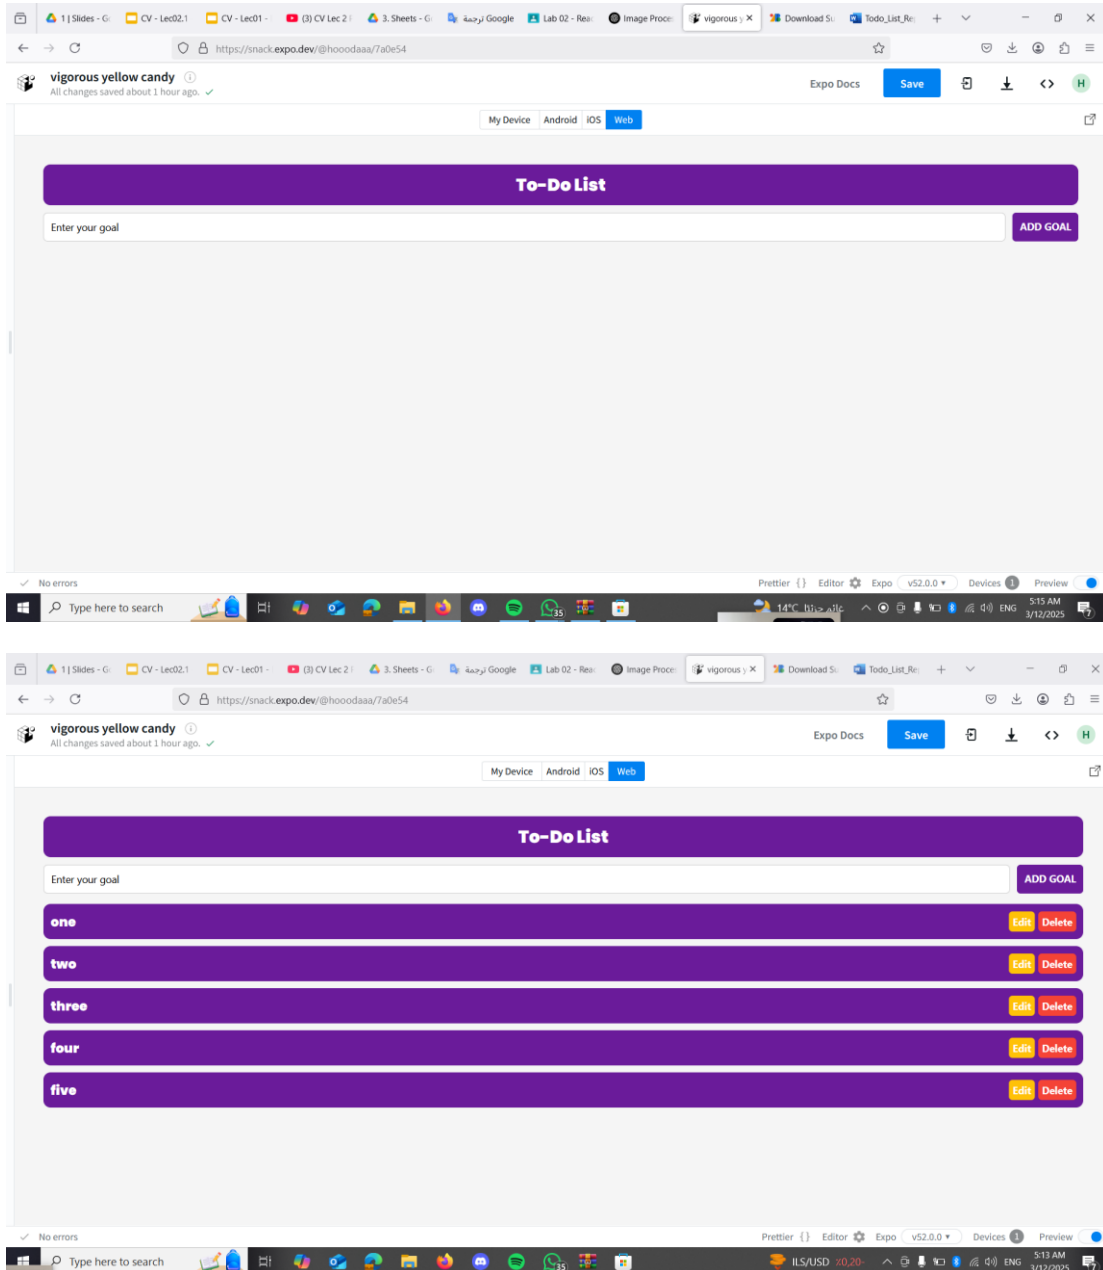

Colors:

Element	Color Code	Description
Background	#F5F5F5	Light gray
Header & Buttons	#6A1B9A	Deep purple
Edit Button	#FFC107	Yellow
Delete Button	#F44336	Red
Save Button	#4CAF50	Green

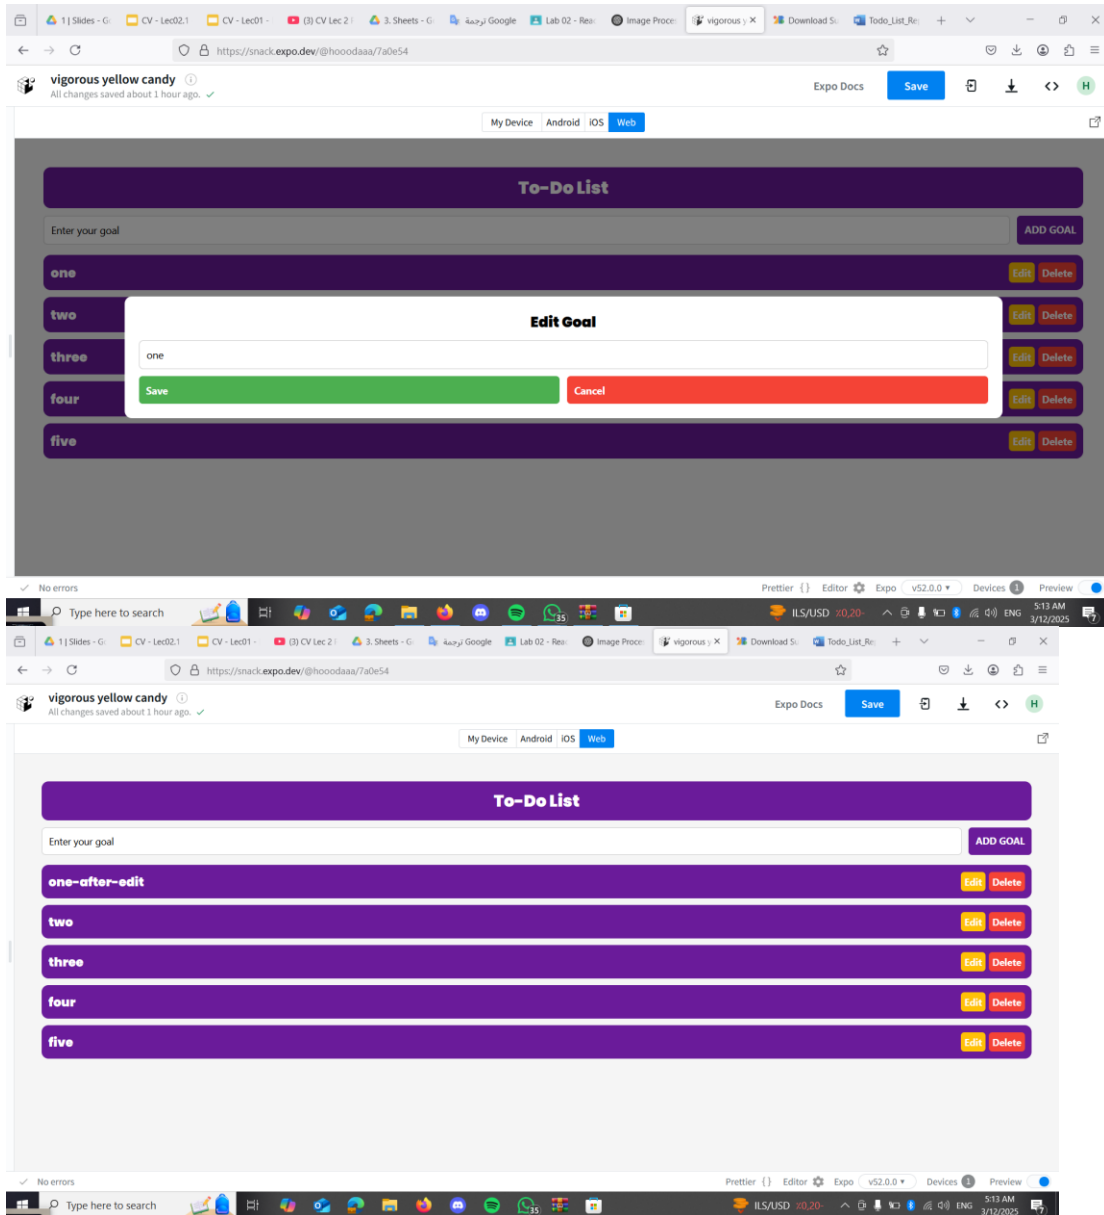

Fonts:

Font Used: Poppins-Black
Imported using Expo Fonts

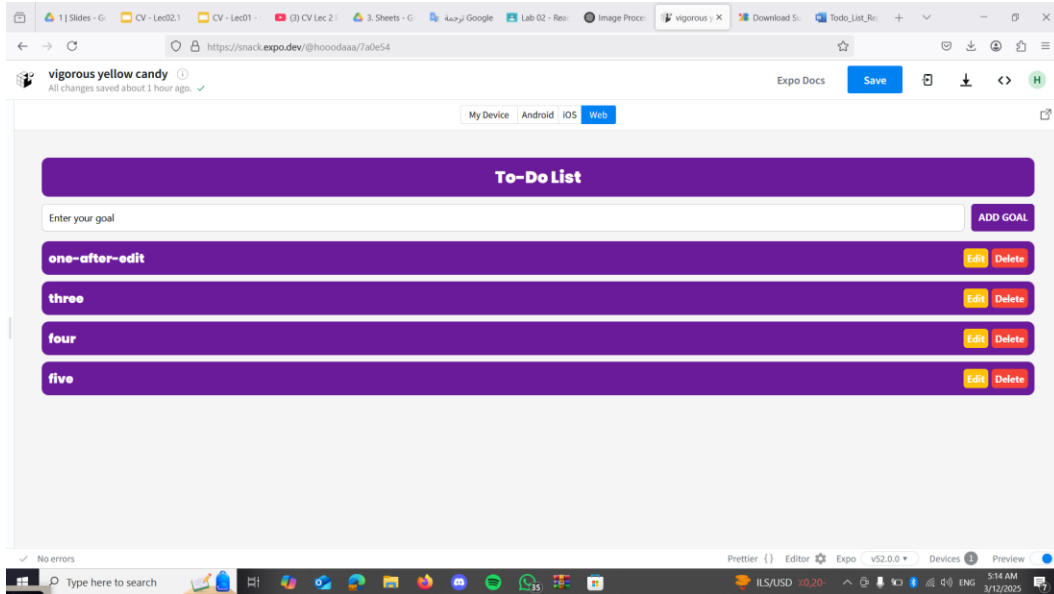

4. Screenshots

- Edit a goal.

- Deleting a goal.

5. Code Implementation

Key Components Used:

- TextInput for user input.
- FlatList for displaying the list of goals.
- TouchableOpacity for interactive buttons.
- Modal for editing goals.
